Major General Andrew H. Anderson
U.S. Army Test and Evaluation Command
Aberdeen Proving Ground, Maryland 21005

Dear General Anderson:

Many thanks for the fine support and hospitality which was shown to our Military Analysis Course on 10 October. The visit to TECOM formed an important part of the ground forces block of instruction. There is no substitute for meeting with operating and test personnel and for close-up observation of weapons, munitions and equipment. Our new analysts acquired information and impressions that are important for their work. The visit was of great value to them.

All of the TECOM personnel involved demonstrated a high degree of knowledge and professionalism. But I would be remiss in not singling out two people. Mrs. Nancy Montgomery did a superb job in responding to our requests on specific subjects and in arranging the schedule. Major Dave Robinson provided enthusiastic continuity and background throughout the day's events. Please extend special thanks to them.

Sincerely,

Director
of
Training and Education
